

RFID: Readiness & Efficiency

RLO2 Solutions empowers DoD to enhance operational readiness and streamline operations utilizing modernized technology and tailored solutions.

Zebra's extensive portfolio of RFID-enabled technology delivers solutions for every aspect of your warehouse operation

We Focus on the **WHY** Efficiency and Readiness

- 1. Focused Logistics:** Ensure the ability to operate seamlessly in the most challenging and dynamic environments.
- 2. Command-and-Control Enhancing:** Near real-time information that allows decision-making across logistics operations to ensure seamless coordination.
- 3. Efficient:** Leveraging artificial intelligence, and advanced manufacturing, that will streamline and optimize efficiency.

The ROI is Powerful.

- **MITIGATING LOSS PREVENTION** including sensitive items
- **INCREASED PRODUCTIVITY**
- **IMPROVED ACCURACY** in every area
- **REAL-TIME DATA ACCESS**

Contact Us

RLO2 and Zebra Technologies have combined our experience with serving the needs of the Government and Military with RFID-enabled solutions.
